

## Soup Suppers at HNOJ.

Holy Name of Jesus church has a long standing tradition of support for and involvement in issues related to Social justice. One vehicle for parish education is our annual series of Soup suppers, held each Wednesday evening during the Lenten season. Each annual series focuses attention on a Social Justice issue such as "affordable housing", "children in poverty", "immigration rights" or "death and dying". Speakers knowledgeable in certain areas or multi media presentations are used to heighten awareness of the need for our involvement in a particular issue. A light supper of soup and bread, provided by parishoners, precedes presentations and focuses on a particular country emphasizing the plight of that country and it's culinary traditions. The two elements, breaking of bread and education of our parish, help to open our hearts to the needs of others - our brothers and sisters in Christ.
